EXPERIENCE

INFOSYS LTD. | SPECIALIST PROGRAMMER

Dec 2020 - Present | Pune, India

- MERN Stack Professional @Dow Jones, developing portal for partner subscriptions & newsletter model for Wall Street Journal (WSJ), FN, PEN, etc.
- Leading the development of the project from the beginning; architected front-end, back-end, database & deployment architecture for the project.
- Using the latest JavaScript development architectures such as using micro-frontends & monorepo for decoupling all the modules in our application.
- Developed a serverless architecture for generating & dispatching newsletters for our clients by creating lambdas/serverless functions.
- Using Next.js with module federation for decoupling various modules in our front-end application.
- Deployment of the application is completely serverless where every application is developed as separate serverless function.

NETLINK SOFTWARE PVT. LTD. | SOFTWARE ENGINEER

June 2018 – Dec 2020 | Bhopal, India

- Full Stack Engineer and a part of Product Team, Lumenore at Netlink Software Pvt. Ltd.
- Led the migration of the whole product from Polymer to React.JS involving 8 applications in the complete product.
- Part of the R&D team for migrating the platform from on-premise server to cloud architecture.
- Developed express gateway for serving front-end applications on cloud.
- Developing a component library for sharing generic components within a micro-frontends architecture.
- Created an event bus for communicating between multiple UI sub-applications within the application.
- Created a module for Embedding various business objects and dashboards into external applications using iframe.

NETLINK SOFTWARE PVT. LTD. | SOFTWARE ENGG. INTERN

Jan 2018 – May 2018 | Bhopal, India

- Developed a News App using Vue.js and Cordova which allows user to sign-in with google and explore news blogs from various external sources.
- Adding native features to the mobile app using Cordova plugins and using firebase to add multiple features.
